

WEBSITE POSTING OF NAMES

St. Joseph Church and School of Waconia has its own website dedicated to providing information for current and prospective parishioners, parents and students about our church and school. This is a powerful new tool to help us communicate, however, we believe it needs to be balanced with certain safeguards that can help us maintain control and ensure safety for our children. These safeguards include:

1. **No names of children will be published on the website** with or without permission of a parent or legal guardian.
2. Pictures of children on the website will only be published if they are group pictures from a distance where not enough details are available to clearly identify someone.
3. First and last names of adults may be published on the website (ministry schedules, chairpersons, coaches, etc.) however, no telephone numbers or home addresses will be published.
4. **Adults may request that their names not be published** on the website by completing the form below and submitting it to St. Joseph Parish Office.

Please do not publish the following adult names on St. Joseph's website:

Name: _____

Name: _____

Signature: _____ Date _____
